

January 26, 2024

To Whom It May Concern:

**The 2024 Prohibited List (WADA)  
BioKyowa's L-Citrulline**

We, Kyowa Hakko Europe GmbH on behalf of BioKyowa Inc., hereby certify that BioKyowa's L-Citrulline

- is manufactured by fermentation followed by purification;
- is a pure material with an assay value as mentioned in the corresponding specification and no materials are added after purification.

In addition, none of the substances listed on "The 2024 Prohibited List" issued by the World Anti-Doping Agency are added / may contaminate BioKyowa's L-Citrulline during or after purification.

From these facts above, we, Kyowa Hakko Europe GmbH on behalf of BioKyowa Inc., hereby confirm that BioKyowa's L-Citrulline is free from above prohibited substances.

If you have any questions or further requirements, please let us know.

Sincerely yours,

---

Fitria Bermanakusumah
